Contents

1 Notes 3

1.1 Remarks regarding application 3

1.2 General remarks 3

1 Notes

Is current state of GitLab OK?

- Keep it logical, it's up to us.
- Can move development plans to separate folder.

Meeting notes and Agenda

- Meeting notes doesn't have to contain everything, only the important data.
- Put agenda of next meeting on the Sunday before meeting.
- Bonus for grade.

1.1 Remarks regarding application

Maps might be hard to implement

- Keep it for later.

Daily reward

- Maybe reward users more for coming back every day.
- Increase the reward behind the scenes.

Our Schema:

- Online UML scheme. Changes continuously with the project.
- Start with a basic one and update it with a realistic plan weekly.

Code:

- Avoid code duplication. Avoid god classes.
- Not every class needs all methods, keep it simple.

Java Server-Client Application

- Sending "Hello World".

1.2 General remarks

Scrum

- Make a lot of issues.
- Divide the work to know where exactly you are.
- Update the issues and boards periodically.
- Not at the end of the week.

Server

- At the beginning use laptop.
- Might move to Heroku later if everything works fine.

Presentation:

- The more the speakers the better. Lecturers are the graders.

Responsible CS:

- Write something in week 9 about ethical coding.

Final

- Have server ready.
- Use Scrum.
- Work ahead.
- Don't stress.
