1.1 General remarks

- **Martijn was our TA this week**
- **What did we do this week?**
 - Worked towards demo 8 and worked on gamification
 - * Marko: Tested a lot of classes and worked on general client-server communication
 - * Erwin: Worked on the API
 - * Eyup: General database stuff
 - * Shruti: Server/client side implementation of friends and followers
 - * Marit: Made a lot of GUI and worked on sketches for the level system, also worked on general gamification
 - * Gyum: Was sick this week, but still tested some methods. Also searched for slogans to use in the future
- No big problems expect for a bug in the API, which caused us to switch over to another one.
- **Goals next week**
 - Get the API working
 - Implement all the features of the demo
 - Work on improving the implementation of friends
- We worked hard this week but it wasn't the most productive week.
- **Questions**
 - Should we save the total amount of CO2: You can if you want
 - Server slowing down: Doesn't matter if it takes a couple of seconds
- **Advice for next week**
 - Work on the presentation
 - Make a draft of the report
 - Do the new Scorion review
 - Look at the rubric again
 - Prepare for demo 3
 - Write down in the report: Merge request reviews were mainly in person
 - Clean up the scrum board: Very old issues are not really neat
 - Presentation will be: Take your laptop and plug in a HDMI cable
